

ILUCIDARE

Building international connections
for heritage-led innovation

HERITAGE-LED + INNOVATION

new knowledge as basis for innovation

idea comes from an
intersecting of disciplines

**the goal of an innovation is
value creation or preservation**

improvement against the current situation

market & society

determine success of innovation

put into use or
made available
for others to use

**an innovation needs to
be implemented / tested**

heritage-led innovation =

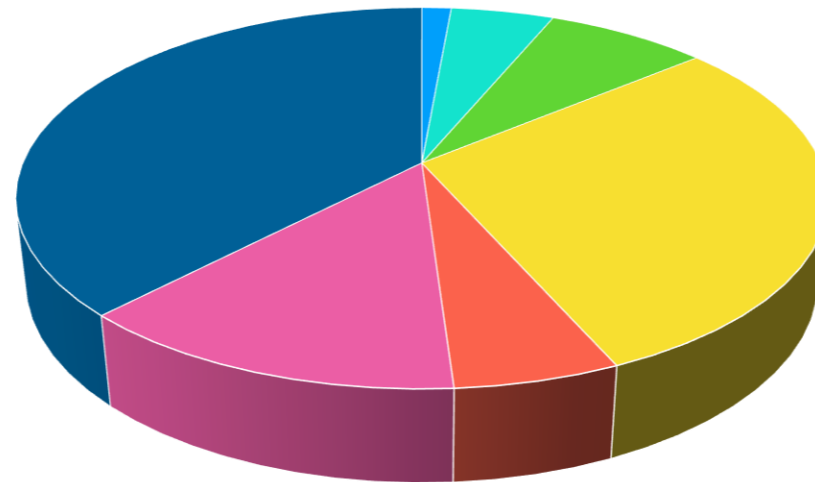

- Government/public administration (19.23%)
